PROFESSIONAL SUMMARY

Motivated Master of Computer Applications (MCA) student with professional experience in Generative AI development and Full-Stack Engineering. Proven experience building robust backend microservices with Python and Flask, integrating private Large Language Models, and optimizing data latency with Redis. Highly skilled in computer vision tools like OpenCV and MediaPipe. Passionate about writing clean, modular code to solve challenging real-world problems.

TECHNICAL SKILLS

Programming & Databases: Python, React, ChromaDB (Vector Database)

AI, ML & Frameworks: Generative AI, Computer Vision, MediaPipe, Flask, REST APIs, WebSockets

Developer Tools & Platforms: Docker, Redis Caching, Git, GitHub, Postman API Testing

PROFESSIONAL EXPERIENCE

CampusPe (Edufu Technologies Pvt Ltd.)

Remote

Generative AI & Backend Developer Intern

Jan 2025 - Apr 2025

- **AI-Powered Vendor Risk Scorecard:** Designed and deployed a customized organization risk analysis tool leveraging LLMs (Groq API) and Flask APIs.
- **Performance & Optimization:** Implemented Redis caching to optimize database query response times, reducing latency and operational server load.
- **Deployment & Security:** Containerized backend systems using Docker for staging; validated security and APIs via Postman and OWASP ZAP scans.

KEY PROJECTS

EyeBridge — Eye-Tracking Communication System

Python, OpenCV, MediaPipe

- Developed a gaze-directed interaction program to assist paralyzed individuals in communicating. Implemented pupil coordinate estimation using MediaPipe Face Mesh mesh models to translate eye focus coordinates to interface actions.

Tek-Nothon CodeNexus

Python, Flask, React

- CodeNexus is a centralized platform for discovering, sharing, and managing academic and innovative software projects. It enables users to upload, explore and collaborate on projects through a secure and interactive platform.

Real-Time Client Dashboard

React, Websocket's, JWT

- **Role-Based Management:** Built a full-stack dashboard with role-based access control to securely manage 100+ user profiles.
- **Data Sync & Auth:** Integrated JWT authentication and WebSockets for secure, real-time data synchronization.

EDUCATION

MCA — Vidya Vikas Institute of Engineering and Technology (VVIET)

Mysore, India | 2024 - 2026

BCA — Seshadripuram College (CGPA: 9.18 / 92%)

Tumkur, India | 2021 - 2024

CERTIFICATIONS & KEY ACHIEVEMENTS

- **Magic Bus Academy:** Completed a 15-week Connect with Work professional seminar focusing on non-verbal communication, work ethics, and teamwork.
- **NVIDIA DLI:** Certified in Fundamentals of Deep Learning (2025) for neural networks development and image classification.
- **Cisco Network Academy:** Certified in Python Essentials-1 & Python Essentials-2 for Machine Learning applications (2025).
- **Academic Awards:** Secured 3rd Place in a intra-college Debugging Competition; Winner in the intra-college Throwball Tournament.
